

Heavy lift, with ease!

Easy Load

Make a good van even better.

Now you have bought your van, it may be the most important part of your business for years to come. But it's just a shell and you must consider your options for turning it into an effective work tool.

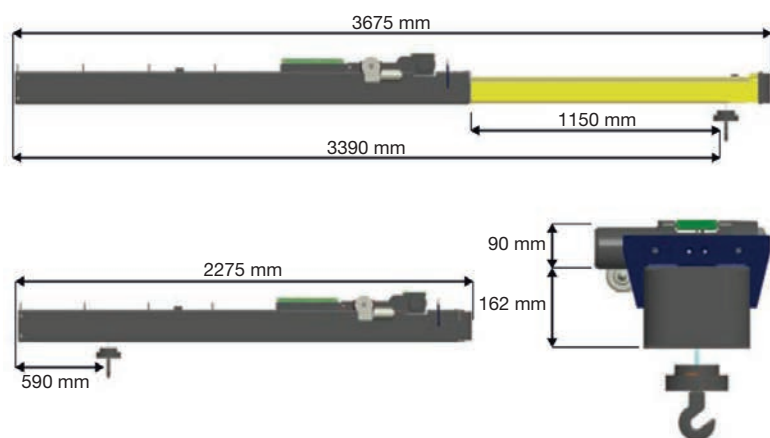

If you transport heavy and bulky items, a traverse/crane from MAD is the answer.

We have refined LCV's since 1958 and all we do is based on that experience, including our choice of complementary products and accessories.

Everything to make your daily life as easy as possible, with every thing in its place.
